Who?

The St. Helens Sports Booster Club is continuing to promote athletics in the St. Helens School District through improvements to facilities, equipment and athletic development. In recent years, the Booster Club was able to purchase a number of items, including: partnering with the school district to fund a new football/soccer field and track, an indoor drop-down batting cage, a pitching machine, the HUDL video system for all high school teams, allocated monies for the football team to recertify helmets and pads over a three-year time period, built a three-bay storage facility at the high school, helped with future installation of lights for the softball hitting facility and purchased weights for the weight room.
